## ABOUT ME

I am a Full-Stack Developer with over 4 years of experience, skilled in both frontend and backend development. I build responsive, SEO-friendly interfaces and write clean, maintainable code. I'm an organized and reliable professional, capable of managing multiple priorities with a positive attitude, and always willing to take on additional responsibilities to help the team achieve its goals

## WORK EXPERIENCE

### PT Steradian Data Optima

Frontend Developer  
2022 - Current

- Utilize HTML, CSS, and JavaScript to create visually appealing and responsive web pages that meet client requirements.
- Coded using HTML, CSS and JavaScript to develop features for both mobile and desktop platforms.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Utilized version control systems such as Git to track changes throughout the development process.

### PT Kandara Digita Creative

Full Stack Developer  
2021 - 2022

- Reviewed code, debugged problems, and corrected issues.
- Developed functional databases, applications and servers to support websites on back-end.
- Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.
- Deploying to server VM
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.

### Jvalley

Frontend Developer Internship  
2020 - 2021

- Created custom APIs for seamless integration with third-party services, expanding application functionality and compatibility. Worked closely with clients to gather requirements and translate them into technical specifications for implementation.
- Continuously updated skills through training courses, workshops, and self-study—staying current on industry trends and emerging technologies.
